

Vision

As the primary state agency to implement Delta ecosystem restoration and lead efforts that advance environmental protection and economic well-being of Delta residents, our vision is:

The Conservancy leads the efforts in collaboration and cooperation with local communities and others to preserve, protect and restore the natural resources, economy, and agriculture of the Sacramento-San Joaquin Delta and Suisun Marsh, with a particular emphasis on agriculture. Our vision is set of programs that demonstrate the complexity of economic and environmental objectives, resulting in a rich, diverse, restored, and accessible Sacramento-San Joaquin Delta and Suisun Marsh.

Because of the importance of agriculture to both the economy and the environment of the Delta, the Conservancy anticipates a particular emphasis on working agricultural landscapes.

Mission Statement

Working in collaboration and cooperation with local communities, the Conservancy will lead efforts and establish partnerships to protect, preserve, enhance, and restore the Delta's environment, agriculture and working landscapes, heritage, property, regional economy, and increase opportunities for tourism and environmental education for the benefit of the Delta region, its communities, and the citizens of California.

Conservancy's Long-Term Goals and Near-Term Strategies

(pages 40-44 in revised layout)

- Long-Term Goal: Support efforts that advance and protect agriculture in the Delta and the economic well being of Delta residents.
- Long-Term Goal: Act as the primary state agency to implement ecosystem restoration in the Delta.
- Long-Term Goal: Identify and secure adequate funding to carry out the Conservancy's mission and mandates
- Long-Term Goal: Identify and establish partnerships with interested parties to further the Conservancy's mission and mandates, including educating and advocating for the Delta as a unique natural and significant economic resource.
